## ASSEMBLY INSTRUCTION INOXMATIC

### 1. For proper maintenance, it is recommended that:

- Wash the product frequently with soap and water and dry with a soft cloth.
- Use an anti-lime treatment to remove any deposits of limestone. Then rinse thoroughly with water.
- Avoid contact with hydrochloric acid fumes coming from, for example, floor washing.
- Avoid direct use on stainless steel of chlorine-containing detergents.

### 2. For correct use of the tray:

- Be sure to level with a level that drains it and the bowl is flat.
- Empty the water from the jar after each use and dry.
- Avoid stagnating water in the collecting tray to avoid the formation of limestone, deposits, molds.

3. Plastic casings and plastic holders can be washed separately in the dishwasher at a temperature maximum of 50 ° C.
